

Project Cost & Budget Estimation

Sapna Sarees Platform Expansion | 2 Developers @ ₹200/hr

This document provides the revised, comprehensive budget for the Sapna Sarees full-stack platform, factoring in a team of **two full-stack developers at ₹200/hour**, containerized Google Cloud Platform (GCP) hosting, and automated omnichannel messaging for 11,000 customers.

1. Development Labor Costs (2 Developers @ ₹200 / Hour)

Role & Scope	Estimated Hours	Hourly Rate	Total Cost (INR)
Developer 1: Frontend Storefront + Atelier Staff Dashboard (React/Vite)	100 – 150 hrs	₹200 / hr	₹20,000 – ₹30,000
Developer 2: Node.js Backend API + Cloud SQL (Postgres) + n8n Automation	100 – 150 hrs	₹200 / hr	₹20,000 – ₹30,000
Total Development Labor Budget (200 – 300 Hours Combined)			₹40,000 – ₹60,000

2. Annual Operational & Cloud Infrastructure Costs (Year 1)

Service / Component	Provider & Specifications	Annual Cost (INR)
Cloud Infrastructure & Database	Google Cloud Platform (Firebase CDN, Cloud Run serverless API, Compute Engine e2 VM for n8n, Cloud SQL PostgreSQL)	₹75,000 – ₹95,000 / yr
WhatsApp Business API & Messaging	Meta Cloud API (~500 conversations/day) + BSP messaging gateway fees	₹80,000 / yr
Domain, DNS & SSL Certificates	Google Cloud DNS + Auto-renewing SSL encryption	₹2,000 / yr
Total Annual Operational & Infrastructure Cost		₹1,57,000 – ₹1,77,000

3. Consolidated Total Project Investment (Year 1)

Phase / Category	Lower Range (INR)	Upper Range (INR)
Full Platform Development Labor (2 Developers @ ₹200/hr)	₹40,000	₹60,000
Annual Cloud Operations & Messaging (GCP + Meta WhatsApp API)	₹1,57,000	₹1,77,000
Total Estimated Investment (First Year Complete)	₹1,97,000	₹2,37,000

*** AI Coding Tools Allocation (Isolated - Excluded from Project Total):**

- **Claude Max 5x:** \$100 / month per account (Provides 5x Pro capacity per session for heavy code and webhook debugging).
- **Google Antigravity:** Free Subscription utilized by Product Owner and Developers inside local IDE environments.

As per project requirements, AI tooling costs are tracked separately and excluded from the software development total budget.
